UPGRADE

For true enthusiasts or even for those who use their motorbike to get around in daily traffic, the Brembo brand is inextricably linked to the world of racing on two wheels. In fact, the teams equipped with Brembo brake systems have been dominating the legendary circuits of the most important world championships for years.

However, the greatest satisfaction for Brembo is when the technologies developed at the highest levels of competitions are transferred to the brake system components for everyday vehicles.

Through the Brembo Upgrade products, you enter an exclusive world, made of unique details, passion, quality and extreme performance.

In the Brembo Upgrade program anyone can find the best fit for his own motorbike: it doesn't matter if you are looking to the design for your "custom look", for which you will find chromed or painted finishes, deliberately exposed metal machined surfaces polished or brushed; or if you are looking for the best track performances, the complete range of products will satisfy your need and your wish to Upgrade.
